PROFILE

Passionate Full Stack Developer with 2+ years of experience in Full Stack Development. I have successfully developed and contributed to over 7 projects, consistently delivering dynamic and responsive web applications. Specializing in building gaming user interfaces, seamless server-side applications, and designing efficient databases, I ensure every aspect of the development process is optimized for performance and user satisfaction. With a proven track record of turning client visions into reality, I offer tailored solutions that prioritize both functionality and an exceptional user experience. Let's collaborate to bring your ideas to life!

EMPLOYMENT HISTORY

❖ **MERN Stack Developer, Tech** .... Jun 2023 – Apr 2025
Bahawalpur

With **2 years** of experience as a **Full Stack Developer**, I worked on projects at **Coding First**, focusing on seamless integration and staying abreast of emerging technologies. In my previous role at **Coding First**, I contributed to mission-critical applications, reduced project development times, and mentored junior developers. Certified as a **Full Stack Developer** by **Coding First**, I bring a passion for innovation and a commitment to excellence in every project.

❖ **Front-End & Back-End Developer** .... Feb 2022 - Apr 2023
Bahawalpur

- Expert in **Back-End development** with **Node.js**.
- Proven record in designing visually appealing, **user-friendly websites**.
- Implementation of **e-commerce** solutions.
- Integrating secure **payment gateways** for seamless transactions.
- Effective client collaboration to translate visions into **functional websites**.

EDUCATION

❖ **The Islamia University Bahawalpur** .... Feb 2022 — Feb 2026
Bahawalpur
BS (Software Engineering)

I believe that a **solid educational foundation** plays a crucial role in my professional **development** and ability to provide exceptional services to **my clients**.

❖ **CodingFirst** .... Jan 2022 — Feb 2023
Bahawalpur
MERN Stack Development

I pursued MERN Stack Development at "Coding First" Bahawalpur, where I gained hands-on experience and expanded my skills in modern web development. Over the past 2+ years as a Full Stack Developer, I have continuously worked on various projects, further strengthening my expertise in Full Stack Development.

Skills

- ❖ MERN Stack (Mongo DB / ExpressJs / ReactJs / NodeJs)
- ❖ JavaScript ES6 / TypeScript
- ❖ MongoDB
- ❖ API Development / Integration
- ❖ API gateway / Rest API
- ❖ Bootstrap
- ❖ Logo / Post / Banner
- ❖ DevOps Engineer
- ❖ Digital Marketing

WORK EXPERIENCE

❖ **Website Responsiveness Specialist** .... Jul 2022

I have also done a project at "Coding First"
about responsiveness. That was my first project
in a team according to Front-End development.
And that was the client feedback "Great job
thanks ".

❖ **Blogging Website** .... Sep 2022

I will develop a modern, responsive, and feature-rich blogging website using
React.js. This platform will allow users to read, explore, and stay updated with the
latest news and articles, powered by real-time external news APIs (such as
NewsAPI.org, NYTimes API, etc.). The website will be built using the latest
React.js best practices and will include API integration to fetch and display live
news articles under different categories like Technology, Sports, Health, and more..

❖ **MERN Stack Developer** .... Nov 2024

I will create high-quality MERN Stack projects including **E-Commerce websites** and **real-time
chat app** using MongoDB, Express.js, React.js, and Node.js. The **E-Commerce** site will include
features like user authentication with JWT, add to cart, update products, delete products, search.
The **real-time chat app** will support secure login, one-to-one and group messaging, Socket.IO
for live updates, online status, and message history. All projects will be fully responsive, API-
integrated, and built with clean, maintainable code. Let's build something powerful and
professional together.
